HELP

- This is a simple game where you will be given a ball with a bar holding it on the bottom side of the screen. You can move the bar as well as the ball horizontally.
- There will be some bricks above the upper side of your field .
- You have to break all of the brick by touching the ball .
- With each touch ,you will be able to break a brick. So,you target should be get the maximum number of bounce of the ball.
- You will lose a lifeline being unable to keep the ball on the bar .
- In the beginning of game,you will have three lifeline and within this lifespan,you have to break all of the bricks .
- After successful completion of breaking all of the brick will lead you to the next level.
